03 PERSONAL PROJECT

- Portfolio Website: Developed a personal portfolio website using HTML, CSS, and JavaScript to showcase academic projects, skills, and resume. Implemented responsive design for optimal viewing on various devices..
- To-Do App: Created a simple to-do list application using React.js, allowing users to add, edit, and delete tasks.
- Weather App: Built a weather application using JavaScript to fetch and display real-time weather data from an API. Calculator:
- Build a simple calculator web application that performs basic arithmetic operations.
- Use HTML for the calculator layout, CSS for styling, and JavaScript for implementing the calculator logic.
